

**Amendments to the Claims:**

This listing of claims will place all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): A custom putter comprising:

a putter head formed of a first material having a sole, a top, a back and a face each formed in a desired shape;

a bore formed in said top;

a polygonal shaped recess having vertical walls of approximately 2 mn in height formed about said bore;

a hosel formed of a second material having an elongate elongated rectangular shaped body of between 1 and 3 inches in length with an upper portion and a foot; said foot including an outwardly flared polygonal shaped shoulder having vertical sides of about 2 mm and a downwardly directed; projection:

said hosel further including an elbow adjacent said upper portion, a receptacle being formed in said elbow;

a shaft of desired length and flex, said shaft being sized at a first end to fit into said receptacle and at a second end to support a grip; whereby,

said putter is formed by securing said projection within said bore with said outward flared shoulder ~~filled~~ fitted into said recess with said vertical sides engaged with said vertical walls uniting said hosel with said putter head in a secure non-rotatable

manner with upper portions of said flared shoulder merged with said top of said putter head and securing said first end of said shaft in said receptacle.

Claim 2 (cancelled)

Claim 3 (original): The custom putter of claim 1 wherein said putter head is selected from a group including cavity back, blade and mallet.

Claims 4-8 (cancelled)

Claim 9 (previously presented): The custom putter of claim 1 wherein said bore and said recess are arranged at selected angles relative to the longitudinal axis of said body.

Claims 10-16 (cancelled)
